BEN HANKINS

Full-Stack Engineer | Product Builder with Infrastructure Depth

New Orleans, LA | benhankins.work@gmail.com | (228) 327-1082 | LinkedIn | Portfolio | GitHub

$10.1M enterprise deal • 50% lead growth • 30% acquisition increase • 80% faster deployments • 99.9% uptime

PROFESSIONAL SUMMARY

Full-stack engineer with 6+ years operating across enterprise infrastructure, production systems, and direct client delivery. Contributed to high-stakes enterprise outcomes at IBM, owned production reliability at Prove AI, and now build and ship full-stack applications through Sproutflow Studio. Operate end-to-end from discovery through deployment with real accountability for what ships.

CORE SKILLS

Development: TypeScript, React, Next.js, Node.js, Python, SQL

Infrastructure: AWS, GCP, Kubernetes, Terraform, Docker, CI/CD

Systems: REST APIs, Auth (JWT/RBAC), Supabase, Postgres

AI: OpenAI, Anthropic, Gemini, Groq

PROFESSIONAL EXPERIENCE

Full-Stack Engineer & Founder — *Oct 2025 – Present*

Sproutflow Studio • New Orleans, LA

- Building and launching full-stack applications (Next.js, TypeScript, Supabase, Vercel) including booking platforms, e-commerce systems, and AI-powered tools.
- Leading discovery, scope product requirements, and own delivery from concept → production across all client engagements.
- Own client relationships, technical architecture, and delivery timelines as a solo operator.

Site Reliability Engineer — *Jan 2025 – Sept 2025*

Prove AI • Remote

- Owned reliability across 4 production Kubernetes clusters, maintaining 99.9% uptime.
- Reduced deployment time 80% through CI/CD automation (GitHub Actions, Helm).

Senior Solutions Engineer — *Feb 2021 – Aug 2024*

IBM — Client Engineering • Remote

- Key contributor to $10.1M SAP RISE deal, designing scalable infrastructure solutions
- Achieved 70% POC-to-close rate across enterprise engagements
- Led discovery → architecture → delivery for 12 enterprise customers (AT&T, Citibank, NBC Universal)
- Built React-based product demos to accelerate AI and cloud adoption.

Solutions Engineer — *Dec 2019 – Jan 2021*

IBM — Client Engineering • Austin, TX

- Delivered Kubernetes-based POCs and cloud solutions across enterprise environments
- Promoted to Senior within 14 months based on performance and deal impact.

Web Developer — *Jan 2019 – June 2019*

Kortivity • Austin, TX

- Built Vue/SQL-powered web extension for candidate sourcing.
- Contributed to 2 client closes before contract end while owning full SDLC from development through handoff.

PROJECTS

greenlit -- AI resume coaching platform with industry-specific feedback, ATS scoring, and bullet rewrites.
Stack: Next.js, Supabase, Google Gemini, Anthropic -- live landing page, invite-only beta

business-plan-writer -- 5-agent AI pipeline for business plan generation. Provider-agnostic architecture.
Stack: Groq, Anthropic, OpenAI, Python -- open source

sproutflow-flagship -- Production agency portfolio with modern responsive design and dynamic case study integration.
Stack: Next.js, TypeScript, Tailwind CSS -- production deployed

EDUCATION & CERTIFICATIONS

B.A. Communication & Media Studies Mississippi State University *2017*

Software Engineering Bootcamp General Assembly *2018*

Red Hat Certified | AWS Certified Solutions Architect - Associate
